

To whom it may concern

16 June 2016

Dear Sir/Madame,

It is our pleasure to confirm the successful cooperation with the Ukrainian Centre of Social Reforms (UCSR) and its subcontractor Public company (JSC) Information Analytic Agency "Statinformconsulting" under the EU-funded project 'Comprehensive Stabilization Support to IDPs and the Affected Population in Ukraine' during February-May 2016.

The partners were employed to implement one of the Project components designed to contribute to the establishment of a comprehensive system for monitoring and assessment of the IDPs' situation in all regions of Ukraine. The monitoring objectives covered assessment of IDP integration/reintegration processes, social cohesion, changes in socio-demographic characteristics and situation of IDPs in the areas of their displacement, IDP mobility trends, economic integration of IDPs, etc.

UCSR analysed set of information collected by Statinformconsulting in all oblasts of Ukraine that are under government control through the following means:

- face-face interviews with IDP (2400 people in total) and local population (1200 people) ;
- interviews with key informants (no less than 600 monthly during February-May);
- focus group discussions (16).

The mentioned project has contributed to development of the following elements of the monitoring system: determination of the system of indicators that are to be measured; identification of the relevant data sources and collection methods; optimization of the observation frequency, etc.

Sincerely,

Roman LYUBCHENKO
Emergency and Stabilization National Officer
